The Honeywell OneWireless™ Network is the most powerful and the only industrial wireless network on the market with capabilities for supporting ISA100 Wireless (IEC 62734), WirelessHART (IEC 62591) and Wi-Fi devices on one end-to-end redundant, scalable and cyber secure network. Honeywell wireless technology allows seamless extension of the process control network into the field.

### **OneWireless Network - Multiprotocol Wireless IO & System**

Wireless communication, or sometimes simply wireless, is the transfer of information or power between two or more points that are not connected by an electrical conductor. The most common wireless technologies use radio waves. With radio waves distances can be short, such as a few meters for Bluetooth or as far as millions of kilometers for deep-space radio communications.
