Biology is the study of life and living organisms, from one-celled creatures to the most complex living organism of all — the human being. Biology includes the study of genes and cells that give living things their special characteristics.

biology - Dictionary Definition : Vocabulary.com

funghi wasn't accepted. Always thought that was the way it was written, I guess maybe it is Italian, cause the pizzas are funghi if I am not mistaken (and whaddaya know, the interesting fact shown above the comments is about pizza's ! #161) Really thought it was written that way in English as well, as you tend to stick an "h" into everything.

Quia - Biology Chapter 1 VOCAB Words

Sample answer: Plants don't have immune systems, but they do respond to disease. Typically, their first line of defense is the death of cells surrounding infected tissue. This prevents the infection from spreading. Many plants also produce hormones and toxins to fight pathogens. For example, willow trees produce salicylic acid to kill bacteria.
