I've been answering difficult questions about my PhD thesis all day to prepare for my viva on Monday. I thought I'd post a few of them up here because they offer a handy FAQ and, I think, dispel of a few myths about what my research was about:. In one sentence what is my thesis? I sought to identify why an attitude and a behaviour were adopted by participants in an online community in ...

Miller: No, I certainly don't think they do. I think the whole tradition of Western science is that science and religion are not mutually exclusive. There are many people in the scientific community, in the United States and around the world, who hold strong religious points of view and do not see their points of view conflicting with working in science or even with the philosophy of science.
