USER S Guide - maynuo.com

In order to develop Subsurface to serve its users in the best possible way, it's important to have user information. Upon launching Subsurface and using the software for a week or so, a one-box user survey pops up. It is entirely optional and the user controls what, if any, data are sent to the Subsurface development team. All data the user sends is useful, and will only be used to steer ...

Quality Manual 9001 2008 D1 - Quality management system

A not always very easy to read, but practical copy & paste format has been chosen throughout this manual. In this format all commands are represented in code boxes, where the comments are given in blue color. To save space, often several commands are concatenated on one line and separated with a semicolon ';
