Credits: 1. Prerequisite: Middle school biology and chemistry. Recommended: 9th or 10th Test Prep: CLEP Biology This course covers the basic material for this exam, but this is considered a very hard test, and I would suspect more will need to be studied to learn everything required for this huge exam. It's worth the same as two college courses which is why it covers so much.

Purpose. To introduce students to the genetic information stored in DNA within the human cell nucleus. Context. The goal of this lesson is to introduce students to the human cell and its DNA as

the genetic information that governs how the cell will function.

From Cell to DNA - Science NetLinks

A lexicon is a list of words that belong to a particular language.. Sometimes, lexicon is used as another word for thesaurus (see below) A dictionary is a list of words and phrases that are (or were) in common usage, together with their definitions - so a dictionary is different from a lexicon because a lexicon is a simple list and doesn't define the words.
