### **Value Investing From Graham To**

Value investing is an investment paradigm that involves buying securities that appear underpriced by some form of fundamental analysis. The various forms of value investing derive from the investment philosophy first taught by Benjamin Graham and David Dodd at Columbia Business School in 1928, and subsequently developed in their 1934 text *Security Analysis*.

Value investing, perhaps more than any other type of investing, is more concerned with the fundamentals of a company's business than its stock price or market factors affecting its price. One of the earliest proponents of this fundamentals-based value investing strategy was Benjamin Graham in the 1920s. The details of this value strategy are spelled out clearly in his book, "The ...
