As puppies, Great Danes can knock over small tables and large children. As adults they can clear a coffee table with a swipe of a tail. Although he may sometimes seem like a bull in a china shop, the biggest thing about the Great Dane isn't his formidable size (up to 175 pounds), but his heart.

Great Dane Dog Breed Information - Vetstreet

The modern Labrador's ancestors originated on the island of Newfoundland, [better source needed] now part of the province of Newfoundland and Labrador, Canada. The founding breed of the Labrador was the St. John's water dog, a breed that emerged through ad-hoc breedings by early settlers of the island in the 16th century. The forebears of the St. John's Dog are not known, but were likely a ...

Keep in mind that the inheritance of temperament is less predictable than the inheritance of physical traits such as size or shedding. Temperament and behavior are also shaped by raising and training. You can avoid some negative traits by choosing an ADULT dog from an animal shelter or rescue group. With an adult dog, you can easily see what you're getting, and plenty of adult Rottweilers have ...
