Untangling The Web What Internet

Last August , security researchers released a blog discussing a new ATM malware family called Ripper which they believe was involved in the recent ATM attacks in Thailand. Large numbers of ATMs were also temporarily shut down as a precautionary measure. During our analysis we noticed some additional details that were not called out, or which appear to contradict this earlier analysis.

I also have a security concern about the files I am receiving from NetSession. It seems like it would not be difficult to download a file using NetSession, modify it to carry a virus payload, and then leave that computer idle, and wait for NetSession to transmit the infected file to other NetSession users.

What is Akamai NetSession Client - Microsoft Community
