Response cards (RCs) are cards, signs, or items that students hold up to display their answers to teacher-posed questions or problems. With preprinted RCs, students select the card with the answer of their choice (see Fig. 3). Examples include yes/true and no/false cards, colors, traffic signs, molecular structures, and parts of speech.

Distance metric parameter value, specified as a positive scalar, numeric vector, or numeric matrix. This argument is valid only when you specify a custom distance function handle @distfun that accepts one or more parameter values in addition to the input parameters X0 and X.. Example: silhouette(X,clust,distfun,p1,p2) where p1 and p2 are additional distance metric parameter values for @distfun
