Benoit B. Mandelbrot (20 November 1924 – 14 October 2010) was a Polish-born, French and American mathematician and polymath with broad interests in the practical sciences, especially regarding what he labeled as "the art of roughness" of physical phenomena and "the uncontrolled element in life". He referred to himself as a "fractalist" and is recognized for his contribution to the field of ...

A project funded by the Canadian Social Sciences and Humanities Research Council (SSHRC). Innovation is everywhere. In the world of goods (technology), but also in the world of words: innovation is discussed in the scientific and technical literature, but also in social science like history, sociology, management and economics.

Comparisons between periods. The period from the mid 1790's to about 1820 (which included all of Jane Austen's adult life) seems to have been pretty much the only one between the middle ages and the 20th century when women's clothing styles, in the predominantly Protestant and Catholic countries of Europe, were neither corseted or tightly-fitted from the waist up; nor hoop-skirted, crinolined ...
