*Merely said, the who we be the colorization of america jeff chang is universally compatible with any devices to read*

## **Who We Be The Colorization**

Film colorization (American English; or colourisation (British English), or colourization (Canadian English)) is any process that adds color to black-and-white, sepia, or other monochrome moving-picture images. It may be done as a special effect, to "modernize" black-and-white films, or to restore color films. The first examples date from the early 20th century, but colorization has become ...

Up until the 1970s, color photography was extremely rare, and so when we think about history prior to that time, we often envision it in black and white. Today's technology now enables us to "colorize" historical photos, giving us our only chance at seeing what the world really looked like back then. And it was truly spectacular. Take a trip back in time with the help of these photos below.
