I gave it a shot, and probably lost around 6-8 lbs. Not too bad, considering. I started at about 193 lbs. I started using a calorie tracker online as well, and it looks like this diet really does well for calorie restriction (around 1000-1200kcal/day) If your burning around 3000 kcal/day naturally, you'd expect to lose about 4 lbs/week just from that.

A water turbine is a rotary machine that converts kinetic energy and potential energy of water into mechanical work.. Water turbines were developed in the 19th century and were widely used for industrial power prior to electrical grids. Now they are mostly used for electric power generation. Water turbines are mostly found in dams to generate electric power from water kinetic energy.

### **Water turbine - Wikipedia**

The Croton Aqueduct or Old Croton Aqueduct was a large and complex water distribution system constructed for New York City between 1837 and 1842. The great aqueducts, which were among the first in the United States, carried water by gravity 41 miles (66 km) from the Croton River in Westchester County to reservoirs in Manhattan. It was built because local water resources had become polluted and ...

Today, Wolfe is 92 years old. His voice is reedy. As he speaks, he looks straight ahead, and in a single sentence, words cascade like the rivers he reveres: "The beginning of water is just a very small trickle in the very tops of the Great Smokies, and as it rushes down the mountain valleys it meets up with other little trickles, and the waters grow from a creek to a branch, and then to a ...

EPSILON BOÖTIS REVISITED. by Duncan Lunan (Analog, 1998; revised August 2013). In January 1974 Analog published my article 'Space Probe from Epsilon Boötis?' 1, which caused such a stir that I'm still asked about it every time I appear in the magazine. It was based on the mystery of long-delayed radio 'echoes' (LDEs), first reported in the 1920s.

When you work on the railroad, you probably know that something terrible can happen. Maybe you'll break a bone, or lose a limb. Or maybe you'll lose the entire lower half of your freaking body. That's what happened to Truman Duncan, who, after falling off of a moving train, was dragged underneath the wheels.
