Enable ViEmu: As mentioned above, use this checkbox to enable or disable ViEmu within Visual Studio.; Ignore CAPS LOCK state in NORMAL: if this option is selected, ViEmu will look at the actual state of the SHIFT key when a command was issued, instead of paying attention to the CAPS LOCK key state. One of the most common inconveniences with the vi/vim input model is that the lowercase and ...

This post is a step-by-step guide on how to compile Qt 4.x.x with MSVC 2010. Although we use Qt 4.7.1 as an example (for historical reasons), you can also find suggestions on building newer versions of Qt by MSVC 2012 and even by Intel Compiler for both platforms x86 and x64. All kudos go to numerous contributors, who spend their time to do all the tweaking and testing (see updates below).

In operationally focused QlikView projects, I'm often asked is if it's possible to search for a list of values in a list box by copy-and-pasting from an external source. For example, searching for customer ID's by pasting values from an Excel spreadsheet. Unfortunately, out of the box, QlikView does not support this method of searching for multiple values.

Laura, To be honest, I struggled with that twice only... Last time (on Windows XP) I did what descibed in that post and it helped. When I had this for the first time, I was setting that up on Windows 2003, which is more restrictive/secure than XP (and therefore, what worked on XP might not work on 2003, e.g. due to credential problems)...
