Vaccine The Controversial Story Of

Claims of a link between the MMR vaccine and autism have been extensively investigated and found to be false. The link was first suggested in the early 1990s and came to public notice largely as a result of the 1998 Lancet MMR autism fraud, characterised as "perhaps the most damaging medical hoax of the last 100 years". The fraudulent research paper authored by Andrew Wakefield and published ...

Leptospirosis vaccine is perhaps the most controversial vaccine pet parents talk about. But, what exactly do you do as a pet owner when you know that the vaccination against a disease could be dangerous? We'll help you answer that very question with everything you need to know about Leptospirosis and its vaccination!

A Glance at the Leptospirosis Vaccine for Dogs | CertaPet

July 22, 2009. The government is planning on forced vaccinations for Swine Flu this Fall. This is a very serious and grave concern for all Americans and people around the world who will be confronted with this issue. You must NOT take these vaccines if you expect to live a normal life span! The purpose behind these vaccinations is population reduction--genocide!
