I want to become a dentist and have been thinking of pursuing a major in psychology. It really interests me how people think, why they think that way, and how they react to the way they thought. I know it's not just that simple, but do you think it's a good idea? I am attending a community college. It is my first semester and I am taking general chem 2 (I took chem 1 in summer), general biology ...

Psychology major!!! ? | Yahoo Answers

What is the psychology behind that? How can I change? Looking for a genuine advice, not sex offers. I am a very respectful and loving person in real life, but I like to be sexually humiliated and used (physical and not by being insulted). When sex ends, I don't feel good about myself until I become horny again. ... Is it bad that I only use Yahoo ...

Best Answer: Psychology is an academic and applied discipline involving the analytic and scientific study of mental processes and behavior. Psychologists study such phenomena as perception, cognition, emotion, personality, behavior, and interpersonal relationships. Psychology also refers to the application of such knowledge to various spheres of human activity including issues related to daily ...

what is psychology? | Yahoo Answers

I'm trying to decide on a major and I've been thinking about psychology, so I decided to check out what people on yahoo answers had to say about it. I was schocked to discover that many people consider psychology worthless. I've always heard the jokes about philosophy and communications majors, but until yesterday I had never heard anyone say that about psychology before.
