The American kestrel (*Falco sparverius*) is the smallest and most common falcon in North America. It has a roughly two-to-one range in size over subspecies and sex, varying in size from about the weight of a blue jay to a mourning dove. It also ranges to South America, and is a well-established species that has evolved seventeen subspecies adapted to different environments and habitats ...

DISCUSSION. The respondents to all three of these studies are clearly U.S. adults who frequently use bicycles for recreation and transportation and who could be called bicyclists rather than just people who occasionally ride a bike. While these results are not representative of the general adult population, they do suggest what adults in this country are capable of.
