Web Form Design Filling In

Contrary to what you may read, peppering your form with nice buttons, color and typography and plenty of jQuery plugins will not make it usable. Indeed, in doing so, you would be addressing (in an unstructured way) only one third of what constitutes form usability.

An Extensive Guide To Web Form Usability — Smashing Magazine

Forms are important online. When well designed they make it nice and easy for people to sign up for newsletters, make a purchase, and so on. However, badly implemented forms can be a real barrier for potential customers, frustrating them to the point where they give up. Web form optimisation and good design is therefore vital, so here I've gathered up 21 examples of form best practice from a ...

21 first class examples of effective web form design ...

There is one acceptable alternative to top-aligned labels, which I'll discuss in point #16. 5. Avoid placing questions side-by-side. Eye-tracking studies have shown that simple one-column layouts are better than multi-column layouts with questions positioned side-by-side.. The only exception to this rule is when asking for dates (day, month, year) or time (hours and minutes), where multiple ...
