What To Do If Your Dusk To Dawn Fixture is Erratic Electrical Question #1: My dusk to dawn light has become erratic, coming on at dusk, staying on a while, going out, coming back on for a few minutes, going out, coming on for a while, going out. The security light fixture has worked perfectly for several years. Should I change the light bulb, sensor or the whole light?

The Lunation Number or Lunation Cycle is a number given to each lunation beginning from a certain one in history. Several conventions are in use. The most commonly used is the Brown Lunation Number (BLN), which defines lunation 1 as beginning at the first new moon of 1923, the year when Ernest William Brown's lunar theory was introduced in the major national astronomical almanacs.
