Wireshark is the world's foremost and widely-used network protocol analyzer. It lets you see what's happening on your network at a microscopic level and is the de facto (and often de jure) standard across many commercial and non-profit enterprises, government agencies, and educational institutions.

**Wireshark · Go Deep.**

Course Overview Hi everyone, my name is Dr. Avril Salter, and welcome to my course, Wireshark Core Protocol Analysis. I'm an independent consultant at Salter & Associates, and I've been working on network traffic analysis for so many years that I don't want to tell you how long because it ages me so much.

I wrote an article about Analyzing BACnet with Wireshark for ASHRAE Journal special supplement BACnet Today. ASHRAE is very particular about endorsing specific company products, and removed some references I had to information about how BACnet MS/TP can be supported on Wireshark by adding an external interface which sends Ethernet SNAP protocol packets.
