Vaccinated is not a biography; Hilleman's experience forms the basis for a rich and lively narrative of two hundred years of medical history, ranging across the globe and throughout time to take in a cast of hundreds, all caught up, intentionally or otherwise, in the story of vaccines. It is an inspiring and triumphant tale, but one with a cautionary aspect, as vaccines come under assault from people blaming vaccines for autism and worse.

Maurice Hilleman is the father of modern vaccines. Chief among his accomplishments are nine vaccines that practically every child gets, rendering formerly deadly diseases—including mumps, rubella, and measles—nearly forgotten.

Vaccinated - Paul Offit

Vaccinated, a biography of Maurice Hilleman, is a testament to the effect of one man's efforts to prevent disease through the development of vaccines. Remarkably, Hilleman spent his life in relative anonymity, despite his creating and marketing many of the world's most successful vaccines and saving millions of lives in the process.
