Visual Studio with Git for Windows. If you're using GIT as your source code management system instead of the (fairly dated) TFVC then Visual Studio doesn't have options to configure anything like this. Instead it (rightly in my opinion) uses the GIT config file's setting. So if you already have GIT setup to use Beyond Compare or any other third party comparison software it will just pick this ...

beyondcompare - How to configure Visual Studio to use ...

VDProj to WiX Converter is a Visual Studio extension that generates WiX-based setup projects from your existing Visual Studio setup projects (aka vdproj).
