The Atlantic has an article decrying the fact that economists are refusing to give behavioral economics a bigger role in introductory economics courses. I'm going to argue that this oversight is actually appropriate, even if behavioral economics provides many true observations about behavior. The core ideas of economics are extremely counterintuitive and are not accepted [...]

Nonviolence is the personal practice of being harmless to self and others under every condition. It comes from the belief that hurting people, animals or the environment is unnecessary to achieve an outcome and refers to a general philosophy of abstention from violence.

### **Nonviolence - Wikipedia**

Soon there will be no more eyewitnesses. The Holocaust is inexorably moving from personal testimony to textual narrative. Survivors, those who clung to life no matter how unbearable so that they could confirm the unimaginable and attest to the unbelievable, are harder to find after more than half a century.
