Motivation is the reason for people's actions, willingness and goals. Motivation is derived from the word motive in the English language which is defined as a need that requires satisfaction. These needs could also be wants or desires that are acquired through influence of culture, society, lifestyle, etc. or generally innate. Motivation is one's direction to behaviour, or what causes a person ...

Lecture outline on self-efficacy and Albert Bandura. In general, Bandura's social cognitive theory provides a view of human behavior and motivation in which the beliefs that people have about themselves are key elements in the exercise of control and personal agency and in which individuals are viewed both as products and as producers of their own environments and of their social systems.
