1. Introduction. In this review, the term eating behaviour has been used to encompass a range of variables (i.e., food intake, choice, preference, hedonic response [liking], acceptance [intake], willingness to taste, and neophobia). Besides food intake, other measures provide insight into children's eating behaviour: Preference describes how a food is ranked in relation to other food items.

We love the wide variety of literature selections Sonlight includes in each Core. Through the engaging literary characters, inspiring missionary biographies and excellent history books, my children have grown in their understanding of people around them, in their heart for the world, in their awe of God's power at work today, and in their sense of place and purpose in this world.
