When I have an open code file in Visual Studio that I am editing I would like to keep that same file highlighted inside of the solution Explorer so that I know where I am at. What I'd really like is to change the focus to a different code file and the solution explorer to move to the file that I am editing. Further Explanation and example:

### **windows - How do I sync the Solution Explorer with the ...**

Many Visual Studio users have a solution tree structure with multiple projects and solution folders that are organized as a deep hierarchy. To avoid visual pollution, users want only those projects expanded that are being actively developed (often with many of the project's child nodes recursively collapsed).

### **Collapse Selection In Solution Explorer - Visual Studio ...**

We have received much feedback asking for a feature that would recursively collapse nodes in the solution explorer. We are happy to announce the Collapse Selection in Solution Explorer extension! What is the Collapse Selection in Solution Explorer extension? Many Visual Studio users have a solution tree structure with multiple projects and solution folders that are organized as a deep hierarchy.

### **Announcing: Collapse Selection in Solution Explorer ...**

I installed visual studio 2010 in my pc. I created a blank solution. When ever I add a project to the solution the original i.e root solution is disappear. This means that as soon as you add a project to a blank solution, the solution disappears and you are unable to add another project. I spent a lot of time to solve the problem. It is very easy.

### **Solution disappears in solution explorer : Visual Studio 2010**

Developer Community for Visual Studio Product family. Thank you for your feedback. The recommended way to edit a project file is to right click on it in the solution explorer and select "Edit <project file name>". .NET
