One of the challenges faced by workstation administrators, is to manage the local administrator account in large environment. One of the options was to use Group Policy Preferences, but that was before KB2962486 removed the possibility to set password using Group Policy Preferences. Since then, Microsoft as come up with a solution : Local Administrator Password Solution (LAPS).

### **How to install Local Administrator Password Solution (LAPS)**

Windows 7 is a personal computer operating system that was produced by Microsoft as part of the Windows NT family of operating systems. It was released to manufacturing on July 22, 2009 and became generally available on October 22, 2009, less than three years after the release of its predecessor, Windows Vista.Windows 7's server counterpart, Windows Server 2008 R2, was released at the same time.
