Accounting ethics is primarily a field of applied ethics and is part of business ethics and human ethics, the study of moral values and judgments as they apply to accountancy. It is an example of professional ethics. Accounting introduced by Luca Pacioli, and later expanded by government groups, professional organizations, and independent companies. Ethics are taught in accounting courses at ...

Accounting ethics - Wikipedia

The history of accounting or accountancy is thousands of years old and can be traced to ancient civilizations. The early development of accounting dates back to ancient Mesopotamia, and is closely related to developments in writing, counting and money and early auditing systems by the ancient Egyptians and Babylonians. By the time of the Roman Empire, the government had access to detailed ...
