However, a UK study recently published in The Lancet now claims that having as little as 5 to 10 drinks per week can shorten your lifespan by 6 months. The more you drink, the bigger that number becomes. Researchers found that having 10 to 15 drinks per week can shorten a person's life by one or two years, and those who consume more than 18 drinks a week are at risk of losing as many as 4 or ...
