What Is The Problem And

Problems cannot be solved privately. This is because problems can affect others around you as well. A problem does not have the potential to cause harm. Problems can be permanent or temporary. Problems, when not solved, cannot grow in their impact but tend to remain the same. Let us take a social problem in order to comprehend this.

Difference Between Problem and Issue | Problem vs Issue

The meanings of "problem", "trouble", and "issue". A problem is something negative that needs to be solved. Some bad things that happen can't be called "problems" because they're unsolvable. For example, if you broke your leg, you probably wouldn't call your broken leg a "problem". The broken leg can't be fixed. On the other hand, figuring out how to get to work with a broken leg is a problem.
