How to change your screen resolution to 640x480 and restore it (for windows vista/7)

You will see a screen like follows. Use Arrow Down key on your keyboard to move down to Enable VGA Mode (in Windows XP) or Enable low-resolution video (640x480) (in Windows Vista and 7). Press ENTER key on your keyboard to start Windows with low resolution.

Low-resolution video (VGA Mode) in Windows | www.winhelp.us

Stuck in low resolution, 640x480. I can't change the display resolution 06-15-2012 11:31 PM. ... Windows 10 Pro 64 with Windows Ink ... Stuck in low resolution, 640x480. I can't change the display resolution 08-14-2018 10:40 AM. I also registered just to say thanks! Found your solution after digging through a ton of google results.

Solved: Stuck in low resolution, 640x480. I can't change ...

I'm running a Macbook Pro with Win 7 on the bootcamp side, using a minidisplayport on both. On the mac side everything works fine. On the Windows side, where it worked fine until two weeks ago, I can only extend or mirror at 640X480 when I plug in a VGA monitor (works fine through the MDP to HDMI cable).

windows 7 - Resolution out stuck at 640x480 Win 7 on a ...

I booted up my pc today and suddenly had some trouble. I have a HD screen with 1920x1280 resolution, but for some reason its stuck on 640x480. I've tried changing it, but its greyed out. I'm no computer wiz, so I really have no idea what to do with this problem.

[Solved] Resolution stuck on 640x480 | Tom's Hardware Forum

Just installed the Windows 7 Beta on my desktop which was previously running XP, but now the resolution is unfortunately stuck at 640x480. I've run windows update and installed everything it found, but none of the updates were video related. I went through device manager and noticed that my video ...

Resolution Stuck at 640 x 480 | Windows Forum

The problem is, when I connect it to an external projector on Windows 7 and Vista, it only allows me to connect at 640x480. I need it to use the laptop to present at conferences, as such I need it to work on a number of different projectors - at the moment I need to use OSX and VMWare but it's painfully slow and doesn't work.

resolution - Windows 7 + NVidia == 640x480 on external ...

Re: 640x480 Resolution. TeamViewer only provides a direct stream of exactly what is being output at the remote side. So if you are getting 640x480, this means the remote side is 640x480. With some monitors, when they are off the graphics card cannot read their specs and so the display defaults to 640x480.

Solved: 640x480 Resolution - TeamViewer Community - 12729

I recently installed Windows 7 on it... Got the proper Monitor driver, but I'm stuck in Screen Resolution 640x480. This is Very annoying as i cannot see my full windows. All the Drivers are "Up to date" and I have already tried Windows Update, Disabling and Reinstalling them. PLEASE HELPP !
