Would You Eat Your Cat

Would You Eat Your Cat? The aim of this activity is to tell you something about how you view the morality of behaviour that many people would consider to be "disgusting" or "repellent" or "obviously wrong", but where it is difficult to explain exactly why the behaviour should be seen this way.

Would You Eat Your Cat? - Philosophy Experiments

If your cat does not want to eat, please do try to find the cause (such as excess stomach acid, dehydration and/or anaemia). You can check the Index of Symptoms and Treatments for more information on possible causes of inappetence. Treating whichever of these potential causes is present is essential, and may even solve the problem for you.

This website is named in honour of Tanya, who was my first CKD cat. Unfortunately Tanya did not receive as much proactive care as Thomas and Ollie, because at the time that she was diagnosed (1998), I did not know about the treatment options described on this website (and of course many of them were not available back then).

Kidney disease - Everything You Need to Know to Help Your Cat

If your cat refuses to dine, it may be that he just isn't hungry. "The reputation for being finicky may be related to the fact that many cats, especially those who live indoors, have low energy requirements and don't need to eat much food to maintain their weight," Dr. Larsen says. Sticking to a regular feeding schedule so that you are only offering food when you know your cat is hungry ...
