AASHTO - Highway Safety Manual - Tool Descriptions

Non-motorized travel is much more common in some urban areas than others. Many communities have significant latent demand for non-motorized travel, that is, people would walk and bicycle more frequently if they had suitable facilities and resources (Komanoff and Roelofs, 1993; Pucher, Komanoff, and Schimek, 1999).

Transport or transportation is the movement of humans, animals and goods from one location to another. In other words the action of transport is defined as a particular movement of an organism or thing from a point A to the Point B. Modes of transport include air, land (rail and road), water, cable, pipeline and space. The field can be divided into infrastructure, vehicles and operations.
