The "Shadow Wolves" is a unit of Native American trackers. The law enforcement unit is part of the U.S. Immigration and Customs Enforcement (ICE). The Shadow Wolves' primary task is tracking smugglers through a 76-mile (122 km) stretch of the Tohono O'odham Nation territory that runs along the Mexico-United States border in the state of Arizona.

Shadow Wolves - Wikipedia

When Yellowstone National Park was created in 1872, gray wolf (*Canis lupus*) populations were already in decline in Montana, Wyoming and Idaho. [citation needed] The creation of the national park did not provide protection for wolves or other predators, and government predator control programs in the first decades of the 1900s essentially helped eliminate the gray wolf from Yellowstone.
