Windstream's Fixed Wireless solution provides fast, secure Internet and high-speed data delivery without high build-out costs or long installations.

Fixed Wireless - Networking Solutions | Windstream Enterprise

Wireless communication, or sometimes simply wireless, is the transfer of information or power between two or more points that are not connected by an electrical conductor. The most common wireless technologies use radio waves. With radio waves distances can be short, such as a few meters for Bluetooth or as far as millions of kilometers for deep-space radio communications.
