Edward II (1284–1327) was King of England from 1307 until he was deposed in January 1327. He married Isabella, the daughter of the powerful King Philip IV of France, in 1308. Edward had a close and controversial relationship with Piers Gaveston, who had joined his household in 1300. Gaveston's arrogance and power as Edward's favourite provoked discontent among both the barons and the French ...

In statistical mechanics, entropy is an extensive property of a thermodynamic system. It is closely related to the number Ω of microscopic configurations (known as microstates) that are consistent with the macroscopic quantities that characterize the system (such as its volume, pressure and temperature). Under the assumption that each microstate is equally probable, the entropy is the natural ...
