Whenever surfaces in contact slide relative to each other, they wear and emit particles. In a study published in Physical Review Materials and selected as an Editor's Suggestion, researchers from EPFL's Computational Solid Mechanics Laboratory (LSMS) investigate the influence of the adhesion between the contacting surfaces on the process of wear particle formation.

LSMS - Computational Solid Mechanics Laboratory

The human musculoskeletal system (also known as the locomotor system, and previously the activity system) is an organ system that gives humans the ability to move using their muscular and skeletal systems. The musculoskeletal system provides form, support, stability, and movement to the body. It is made up of the bones of the skeleton, muscles, cartilage, tendons, ligaments, joints, and other ...
