I wish there is a simple shortcut to just open a file within a solution. These 3 are close but none of them is perfect. Ctrl+; has a delay and does not clear your search after you open the file.. Ctrl+, takes too long initially and it shows method names etc, showing a lot of irrelevant results if you just want to open a file.. Using Command Window you have to type open or of, but in some cases ...

One of the concerns that I have repeatedly heard from customers when we talk about Azure is application lifecycle management. If you do most of your resource deployment and management using the Azure Portal, then you probably picture a very manual migration process if you wanted to move your app from dev to test, or if you wanted to share your app with another developer.

This post is a step-by-step guide on how to compile Qt 4.x.x with MSVC 2010. Although we use Qt 4.7.1 as an example (for historical reasons), you can also find suggestions on building newer versions of Qt by MSVC 2012 and even by Intel Compiler for both platforms x86 and x64. All kudos go to numerous contributors, who spend their time to do all the tweaking and testing (see updates below).
