Video Camera Resolution Chart

4K resolution, also called 4K, refers to a horizontal display resolution of approximately 4,000 pixels. Digital television and digital cinematography commonly use several different 4K resolutions. In television and consumer media, 3840 × 2160 (4K UHD) is the dominant 4K standard, whereas the movie projection industry uses 4096 × 2160 (DCI 4K). ...

4K resolution - Wikipedia

By Bob Mesnik. Resolution is a critical metric for selecting the right IP camera for your surveillance system. After all, if we want to be able to read the license plate on a car in the parking lot, we need to have enough resolution.

IP Camera Systems and Resolution Specifications

The graphics display resolution is the width and height dimension of an electronic visual display device, such as a computer monitor, in pixels. Certain combinations of width and height are standardized and typically given a name and an initialism that is descriptive of its dimensions. A higher display resolution in a display of the same size means that displayed photo or video content appears ...

GoPro Camera Comparison Chart (April 2018) | Fast Comparison

Although the megapixel race has been going on since digital cameras had been invented, the last few years in particular have seen a huge increase in resolution – we have seen everything from 41 megapixel camera phones to now 50.6 megapixel full-frame DSLR cameras. It seems like we have already reached the theoretical maximum for handling noise at high ISOs with the current generation sensor ...

CAM200IP Marine Video Camera | Raymarine

In this cinematography tutorial, we talk about the difference between DSLR, cinema, and mirrorless cameras. While DSLR cameras like the Canon 5D, Canon 7D, Nikon D800, and others changed the game in terms of taking digital video quality to the next level, now cameras made by Arri, RED, and Sony show the full capabilities of digital cinematography.

Cinematography Course: Shoot Better Video with Any Camera

Make sure this fits by entering your model number.; Full HD 1080P video calls – premium video quality that makes you look like a Pro. Full HD 1080P video Recording – a glass lens and full HD mean your recorded videos are crisp and vibrantly colored.

The iPad has consistently been the best of the best in the world of tablets. Each new release seems to set a new threshold, with the latest iPad Pro rivaling the power of most laptops. But while it is easy to choose an iPad, it is not so easy to narrow that choice down to a specific iPad. The iPad lineup is now broken into the Pro level of tablets to go along with the basic iPad models.
