Wheel of Fortune was a British television game show based on the American show of the same name created by Merv Griffin. Contestants compete to solve word puzzles, similar to those used in Hangman, to win cash and prizes. The title refers to the show's giant carnival wheel that contestants spin throughout the course of the game to determine their cash and/or prizes.

Summary: I'm taking a row of data from one sheet and pasting it into another, however the sheet would be a daily use kind of thing where new data is just entered below old data. Problem: On each new run, 7 is consistently added to the UsedRange.Count. For example: on one run the UsedRange.Count will be 7; the next time I run through the function the count will be 14.
