*Written in Stone: Evolution, the Fossil Record, and Our Place in Nature*. The book's a unique mix of scientifically rigorous information and elegant accounts of life on our planet. I particularly enjoyed the chapter on fossil whales where Switek describes how researchers struggled to understand their ancestry.

### **Written in Stone: Evolution, the Fossil Record, and Our Place in Nature | WIRED**

The stone has kept a fairly decent record about life in the past, but I think it is far from telling us the whole story. Of course the fossil record is subject to mountain ranges being destroyed by erosion, Oceanic plates being destroyed at the trenches along with other factors of nature that keeps it's fossil record history to itself.

« Not Written in Stone: Evolution, Revelation and Certainty Not Written in Stone: Evolution, Revelation and Certainty » Over the past few decades there has been a growing discourse on science, evolution and its compatibility with Divine revelation.

### **Not Written in Stone: Evolution, Revelation and Certainty**

Being an active part of the communities that we serve is important to us. When building our centers, we stop construction for one day and invite the public to sign the unfinished walls of our radiation vault with messages of hope and inspiration. These events, which we call "Written in Stone," are deeply moving for everyone involved.
