The fable has traditionally been of modest length, however, and the form reached its zenith in 17th-century France in the work of Jean de La Fontaine, whose theme was the folly of human vanity. His first collection of Fables in 1668 followed the Aesopian pattern, but his later ones, accumulated during the next 25 years, satirized the court and its bureaucrats, the church, the rising bourgeoisie ...

Though fables can reveal to us much about human nature, it is interesting to note that the central characters are most often animals. This is true even in more modern versions of fables, such as George Orwell's Animal Farm. This anthropomorphism can provide a great in for some very fun writing activities.. Have younger children match personality traits to animals.

The Panchatantra is a series of inter-woven fables, many of which deploy metaphors of anthropomorphized animals with human virtues and vices. According to its own narrative, it illustrates, for the benefit of three ignorant princes, the central Hindu principles of *nīti*. While *nīti* is hard to translate, it roughly means prudent worldly conduct, or "the wise conduct of life".

Caldecott Medalist Ed Young is the illustrator of over eighty books for children, seventeen of which he has also written. He finds inspiration for his work in the philosophy of Chinese painting.

### **About Ed Young**

2. Prepare Students To Infer: students need to understand that in most stories (with the exception of fables), the author will not tell readers what the theme or lesson of the story is. Readers will have to think about what the characters did wrong or right and what they can learn from the character's experience.
