Ethics is a key component of good governance (Perry et al. 2014) and has significant potential to affect public trust in all forms of government (Joyce 2014). Previous research has identified a number of factors that can shape standards of conduct within an organization, among which the role of leadership has attracted significant attention (Grojean et al. 2004; Steinbauer et al. 2014).

Metaphilosophy (sometimes called philosophy of philosophy) is "the investigation of the nature of philosophy". Its subject matter includes the aims of philosophy, the boundaries of philosophy, and its methods. Thus, while philosophy characteristically inquires into the nature of being, the reality of objects, the possibility of knowledge, the nature of truth, and so on, metaphilosophy is the ...

"[Primary sources] provide the 'raw data' that you use first to test the working hypothesis and then as evidence to support your claim. In history, for example, primary sources include documents from the period or person you are studying, objects, maps, even clothing; in literature or philosophy, your main primary source is usually the text you are studying, and your data are the words on the page.
