What is Sound?

Because the introduction is the first portion of your essay that the reader encounters, the stakes are fairly high for your introduction to be successful. A good introduction presents a broad overview of your topic and your thesis, and should convince the reader that it is worth their time to actually read the rest of your essay.

How to Write a Good Introduction - The Writing Center at MSU

In an essay, article, or book, an introduction (also known as a prolegomenon) is a beginning section which states the purpose and goals of the following writing. This is generally followed by the body and conclusion. The introduction typically describes the scope of the document and gives the brief explanation or summary of the document.

Introduction (writing) - Wikipedia

Writing Introductions -- Help Writing Admissions Essays. The introduction is the first sentence of your essay and it plays the dual role of setting the theme of your essay and engaging the reader...

Writing Introductions -- Help Writing Admissions Essays

Sound and noise are often used interchangeably for anything perceived by means of hearing. Sound, however, is more general in application, being used for anything within earshot: the sound of running water. Noise, caused by irregular vibrations, is more properly applied to a loud, discordant, or unpleasant sound: the noise of shouting.
