Update (Apr 2010): It's been quite a few years since I originally did this comparison. Since then, Charles Nicholson and I created Unit Test++, a C/C++ unit-testing framework that addresses most of my requirements and wish-list items. It's designed to be a light-weight, high-performance testing framework, particularly aimed at games and odd platforms with limited functionality.

Educational assessment is the systematic process of documenting and using empirical data on the knowledge, skill, attitudes, and beliefs to refine programs and improve student learning. Assessment data can be obtained from directly examining student work to assess the achievement of learning outcomes or can be based on data from which one can make inferences about learning.
