In developmental psychology and moral, political, and bioethical philosophy, autonomy is the capacity to make an informed, uncoerced decision. Autonomous organizations or institutions are independent or self-governing. Autonomy can also be defined from a human resources perspective, where it denotes a (relatively high) level of discretion granted to an employee in his or her work.

Sociological Aspects of Music Psychology Human beings are not meant to live in isolation. Our complex mammalian nature, along with a host of other emotional, physical and spiritual drives, cause us to form groups. The smallest social unit is the family, which spawns larger groups, communities, and finally nations.
