2 Answers. It seems the only way to do this is manually removing files. Because Visual Studio has nothing to do with git. You didn't "unbind" the project from source control. You deleted the repository itself. The .git folder is the repository. This is an extremely bad idea. If you encountered a problem with git, solve it. Git isn't broken.

git - Unbind Source Control for Solution or Project VS ...

To (permanently) remove a project or solution from source control. 1. In Visual Studio, click File, click Source Control, and then click Change Source Control. 2. In the Change Source Control dialog box, select the project and/or solution you want to remove from source control, and then click Unbind.

How To: Remove a Project from Source Control in Visual Studio

The solution is much simpler than that. You simply need to remove three files from the project UNC Path. Navigate to your solution's UNC Path. Example: C:\Users\Your User Name\Documents\Visual Studio 2015\Projects\Your Project Folder. Then permanently delete ("SHIFT + DEL") the .git* files and folder.

Remove git mapping in Visual Studio 2015 - Stack Overflow
