World History 50 Key Milestones

World population milestones were unnoticed until the 20th century, since there were no reliable data on global population dynamics.. It is estimated that the population of the world reached one billion for the first time in 1804. It would be another 123 years before it reached two billion in 1927, but it took only 33 years to rise by another billion people, reaching three billion in 1960.
