Volume of prism contains rectangular prism, L-blocks, solid blocks, counting cubes, triangular prism and other mixed prisms.

Volume Worksheets

In this problem you need a volume, so you will need to rearrange the density equation to get volume. By multiplying both sides by volume, we can get volume out of the numerator (the bottom). You can then divide both sides by density to get volume alone: By substituting in the values listed above, So the volume will be 0.625 m³

Density and Specific Gravity - Practice Problems

Section 6-3 : Volume With Rings. For each of the following problems use the method of disks/rings to determine the volume of the solid obtained by rotating the region bounded by the given curves about the given axis.

Calculus I - Volumes of Solids of Revolution / Method of ...

You can solve this problem by first finding the point of intersection between the two curves to find your limits. Area will be bound between the points $x=0$ and $x=2$. The formula to find volume of revolution is the integral from a to b of $2\pi x$ times $(x+2-x^2)dx$.

Another Volume Problem...??? | Yahoo Answers

So i've tried to figure out this problem for awhile, and i just can't seem to find a solution to this. I have an HP pavilion, and awhile ago it was fine. Showing on-screen volume and everything, now it just doesn't show at all. Is there a way to get it back? did i hit a button? answers would be greatly appreciated.
