A two-way radio is a radio that can both transmit and receive a signal (a transceiver), unlike a broadcast receiver which only receives content. It is an audio (sound) transceiver designed for bidirectional person-to-person voice communication with other users with similar radios. Two-way radios are available in mobile, stationary base and hand-held portable configurations.

Food choice is a complex phenomenon that is not yet well understood. The study of food decision making could greatly benefit from neuromarketing techniques to investigate the processes involved in food decision making, such as the influence of attitudes and emotions on choices, which traditional segmentation variables, such as socio-demographics, psychometrics, and stated preferences, do not ...
