South-up map orientation is the orientation of a map with south up, or at the top of the map, amounting to a 180-degree rotation of the map from the standard convention of north-up. Maps in this orientation are sometimes called upside down maps or reversed maps.. Other maps with non-standard orientation include T and O maps, polar maps, and Dymaxion maps

Having Fun with Upside Down Maps. The light-hearted side of upside down maps (aside from startling people) is that the southern of two neighboring bodies can now be viewed as the one that's "on-top". For example, in an upside-down map, Mexico now sits directly "on top" of the USA and the United States gets a chance to sit "above" Canada.

Upside Down maps (also known as South-Up or Reversed maps) offer a completely different perspective of the world we live in. Technically speaking, even referring to the earth with words like "up" or "down" or comparing places with words "above" or "below" is flawed, considering that the earth is a spherical body (it's actually slightly "fatter" at the equator) and flying through 3 dimensional ...
